FITNESS CLASS DESCRIPTION

- **Aqua Aerobics:** Tone and sculpt your body with no impact on your joints. This popular water aerobics workout is a blend of cardio and resistance training. We may incorporate resistance tools such as water weights and pool noodles.
- **Lift and Core:** Lift and Core is a series of high-repetition, low-weight exercises performed using a barbell and a selection of weight plates. Each lift and core class has a warm-up, several strength-training tracks, and a cool-down at the end. There will also be a focus on the core, abs and back muscles as part of this class.
- **Kettlebell Power:** This class will strengthen the key muscle groups including the legs, core and upper body. Our kettlebells class is a super effective way of improving total-body strength.
- **Sunrise Spin:** Sunrise Spin is a great way to start the day. A steady Spin Class with plenty of climbs and a few sprints thrown in for good measure.
- **HIIT Spin:** This Spin Class will have you sweating and get the blood pumping. Fun and effective way to exercise on an indoor bike, especially if you're short on time or want to maximize your results with less time spent.
- **Rhythm Ride:** Rhythm Ride is a dynamic 45-minute spin class that combines hill climbs and fast-paced sprints, all set to an upbeat rhythm. Get ready to challenge your endurance, increase your speed, and ride to the beat!
- **Total Body Conditioning:** Body conditioning classes are a great way to achieve muscular endurance. These classes combine a range of barbell, dumb bell and kettlebell exercises to increase all round fitness and strength.
- **Super Seniors:** This class is aimed at our more senior members and has been specifically designed to combined gentle cardio exercises with strength and conditioning movements for a full body workout.
- **Push and Lift:** Push and Lift consists of high-repetition, low-weight exercises performed using a barbell and a selection of weight plates to upbeat music. Each Push and Lift class has a warm-up, several strength-training tracks, and a cool-down at the end.
- **Step and Sweat:** An energetic workout involving step routines that are designed to give you a great workout. This cardio class guaranteed to get you moving and sweating. Dumbbells can be added for extra toning.
- **Super Circuits:** A modern twist on the tried and tested circuit training class. A great calorie burner designed to develop all round fitness. This class is you against the clock as you rotate through several stations combining bodyweight exercises, HIIT exercises and weight-based exercises to get you in great shape.
- **Stretch and Flex:** Flexibility and mobility are important aspects of training and recovery that will keep you moving efficiently and without pain. Our stretch and flex class will leave you feeling rested, restored and ready to crush your next workout.
- **Cross Training:** Cross training is an all-round exercise class combining elements of cardio and strength training. It is an approach to training that draws from a variety of disciplines to create a workout that is both productive and effective.
- **Box Fit:** Box Fit is a cardio class inspired by Martial Arts where you can punch, kick and strike your way through a total body workout to motivating music. Expect to burn heaps of calories and feel great whilst you're doing it!
- **Ass and Abs:** Squat, lunge, crunch repeat for a serious workout that does what it says on the tin. Expect to feel the burn and to tone up both your ass & abs!
